

PRODUCT ENGINEER

KAIDEN RILEY

T: *** ** * // W: www.0x424.kr // E: kaiden@0x424.kr

PROFILE

An engineer with a genuine passion for technology. I built my first PC at 9 and have been drawn to building and problem-solving ever since. I see programming as a natural intersection of those instincts: part craft, part puzzle. Outside of work, years of competitive gaming have sharpened my focus and instilled a drive to keep improving everything I take on.

EXPERIENCE

2025 – 2026

PLEO

Associate Engineer 2

Promoted to Associate Eng. 2 in recognition of fast learning, strong contributions, and a bias for action, most notably for successfully leading the end-to-end development of a new feedback loop feature across both Mobile and Web platforms

2024 – 2025

PLEO

Associate Engineer

Drove the development and enhancement of frontend features across web and mobile applications, consistently improving user experience. Led and collaborated on projects that translated customer needs into technical solutions, with a focus on delivering measurable impact and high-quality UX

EDUCATION

2023 – 2024

NORTHCODERS

Full-stack Development Bootcamp

2022 – 2023

VICTORIA UNIVERSITY

German
